### **Marquardt Hired to Helm Omega UV Liners Plant, Operations in Canton, South Dakota**

Canton, S.D. (November 1, 2018) – Omega UV Liners has hired Grant Marquardt as the company’s new General Manager. Beginning November 1, 2018, he will oversee daily operations at the manufacturing and technology firm. “Grant will work with our design and production teams to ensure that Omega produces the highest quality UV liners, at competitive prices, that exceed customer expectations,” says Sales and Marketing Director, Ken Moulds.

Marquardt’s most recent experience was as Operations Manager at Design Tanks. He was responsible for plant safety, quality, productivity, and on-time delivery. Before that, he served as Manufacturing Manager, Continuous Improvement Manager, Continuous Improvement Engineer, and Quality Manager at several manufacturing firms.

Grant brings a track record of consistent quality and performance improvement in products and crew performance, as well as strong attention to plant safety and efficiency. He holds a Bachelor's degree in Manufacturing Engineering Technology from South Dakota State University in Brookings.
